

Review Update

- ✍ **Director's CD-2 Review is Sept 28 – 30**
 - ✍ Consider this a rehearsal for the DOE CD-2 review tentatively scheduled for Oct 26-28
 - ✍ I believe we are in very good shape for this review (cost, schedule, technical, organization)
 - ✍ I do not have a detailed schedule yet, but it will be scheduled like the DOE CD-1 review:
 - Sept 28 AM – plenary talks; Sept 29 PM through Sept 30 PM – breakout sessions; closeout Sept 30 PM
- ✍ **Breakout session “speakers” should update their CD-1 talks for this review**
 - ✍ S Lackey – Controls (btev-doc-2937)
 - ✍ J Theilacker – Cryo Elements (btev-doc-2954)
 - ✍ R Reilly – 2007-2009 Shutdowns (btev-doc-2946)
 - ✍ D Chichili – Magnet Cost Overview (btev-doc-2940)
 - ✍ J Tompkins – Correctors (btev-doc-2943)
 - ✍ S Feher – HTS Leads (btev-doc-2942)
 - ✍ T Nicol – Quad Cryostats (btev-doc-2941)
 - ✍ J Johnstone – Accelerator Physics (btev-doc-2952)
 - ✍ T Page – Spool Assembly (btev-doc-2938)
 - ✍ R Bossert – Electrostatic Separators (btev-doc-2944)
 - ✍ P Garbincius – 2005 Shutdown (btev-doc-2936)
 - ✍ F Nobrega – Cold Mass (btev-doc-2939)
 - ✍ G Krafczyk – Power Supplies (btev-doc-2945)

Review Update (continued)

- ✍ **Deepak and I will be sending out new cost profiles, schedules, etc. We will also be sending out more specific guidance.**
- ✍ **Talks are due to me by Thursday, Sept. 23**
- ✍ **I do not know who our reviewers are yet, but I hope we won't have to run through every single prepared breakout talk.**
 - ✍ **I suspect a significant amount of the breakout session time will be spent in “drill down” exercises with Deepak and me.**
- ✍ **All speakers should make themselves available Sept. 28 PM –Sept. 30 AM (+ J Riordan and R Thurman-Keup)**

- ✍ **There is another review tentatively for Oct 13-14 (Director's pre-EIR). I have no information on this now.**
